

ASHA StAMP APPLICATION

Mission Statement: In 2000, ASHA and state speech-language-hearing associations began the Medicare Intermediary and Carrier State Network. Its mission is to influence local public policy decisions that affect Medicare coverage and reimbursement of speech-language pathology and audiology services.

The StAMP network accomplishes this by:

1. Serving as a conduit for information and strategy sharing with other MICS representatives, state association leadership, state/local coalitions and ASHA.
 2. Establishing or enhancing effective linkages (in collaboration with the state association) with Medicare intermediary and carrier staff, state health agencies, consumer groups, other related professionals and speech-language pathologists and audiologists in the state.
 3. Serving as a resource to fellow speech-language pathologists and audiologists regarding local coverage policies, federal and state payment requirements and key contacts for health care economic issues.
 4. Serving as a catalyst to mobilize speech-language pathologists and audiologists for effective advocacy at local, state and federal levels.
